

# JUST FILMS

---

*Different supports on which our fabrics can be laminated, up to 700 microns thick for large lampshades. Some of these are also used as diffusers without any additional layer.*

# JUST FILMS

Use your own fabrics!

We have a **wide range of materials with self-adhesive** on one or two sides and protective silicone paper to use as backing support. Different colours, transparencies, thicknesses and materials are available.

**Let your imagination run, and consult us about the multiple possibilities.**
